

UPCOMING OPPORTUNITIES

VIRTUAL WORK EXPERIENCE AND WORK EXPERIENCE

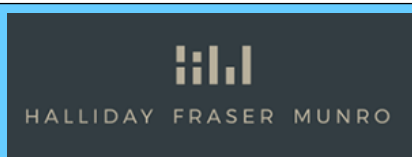

Work experience is an important feature of any university, apprenticeship, or job application. With the current restrictions carrying this out in-person can be difficult. I am hopeful that you will at some point in the not-too-distant future be able to undertake work experience in person, however, in the meantime, I will try to send you virtual opportunities that you might like to try. Remember, any experience gained, from online or other means, attending Feature Lectures and MOOCs, can be drawn on when writing your Personal Statement and/or CV!

Research Work Placements

SATRO are looking for students passionate in one or more of the following subjects - Science, Technology, Engineering, Maths and related subjects e.g. Design, Environment, Geography and Psychology to spend some of Summer 2021 working with one of our research partners to produce an innovative research project related to the applications and use of STEM. **It is free to participate in this programme.** The work will be completed at home and projects presented back to the provider for judging.

Applications for the placements are open now and close on **31st March 2021** and will need to be supported by a teacher. More information can be found [here](#).

Online Architecture and Design Work Experience

The Design Work Experience – This experience is made up of two tasks, the first to make you familiar with SketchUp and the second to design a house for a celebrity.

The Technical Work Experience – newest work experience task is to design and construct a new-build contemporary extension using Revit.

Both opportunities can be found [here](#).
